

Task 3 - Flex Printing

Instructions for Team:

1. You must carry the Navigate_a_Terrain.pdf in a storage device to a vendor who prints the flex sheet.
2. Dimensions of the arena can be viewed in .pdf file by pressing CTRL+D in Adobe Reader. For your reference and verification, the flex sheet to be printed should be of dimensions **250cm x 250cm**.
3. Team is not allowed to make any changes in the .pdf file. Any team making such manipulations will be disqualified from the competition.

Instructions for the Vendor:

- The vendor must print the arena directly from the .pdf file.
- The vendor cannot make any changes in the .pdf file provided for printing.
- If the vendor is using the CMYK color profile for printing, he/she must set the K value to 100 as that would give a perfect black color for the black lines of the arena.

General Instructions for keeping flex sheet in good condition:

1. Leave sheet open for about 30 minutes to dry in air after printing. After this, you can roll it and bring it home.
2. Do not fold the flex sheet. Always keep it rolled after using it.
3. You will be using the printed flex sheet throughout the competition, so teams are advised to store the rolled up flex sheet in a dry, safe place.

Instructions for Submissions:

1. **Print the arena on the flex sheet as per the instructions given.**
2. **Click a picture of your arena using camera. This picture must clearly depict the printed flex sheet.**
3. **Upload the picture using instructions provided on Task 3 tab of the Portal.**
